WORK EXPERIENCE

WEB DEVELOPER (LARAVEL / VUE)
IN-STORE REVIEWS INC.

2023 - 2024 (July)

- Contributed to the design of a scalable database schema using MySQL Workbench.
- Developed UX/UI components using Moqups, Figma, Canva, and Adobe Photoshop.
- Assisted with the integration of login authentication, automated text messaging (Twilio), and payment processing (Paddle).
- Created APIs, backend controllers, factories, seeders, and migrations in Laravel 10, and performed API testing with Postman.
- Developed reusable Vue components.
- Integrated APIs into the frontend using Vue.js, with Axios for HTTP requests and Pinia for state management.
- Handled deployment processes and set up branch sites using Laravel Forge.
- Managed the entire codebase, including branch management, on GitHub.
- Administered DNS records on GoDaddy.

WEB DEVELOPER (LARAVEL / REACT)
GLOBALOR PHILLIPINES

2022 - 2023

- Collaborated on and contributed clear, actionable ideas for user interface design.
- Designed the user interface for a "Frequently Asked Questions" page using Figma.
- Developed the page using HTML 5, CSS, React, and Tailwind CSS framework.
- Tested the website functionality using the Cypress testing framework.
- Conducted manual testing and functionality verification of the website.

VIRTUAL ASSISTANT
UPWORK INC.

2019 - 2023

- Researched and collected data for lead generation from diverse sources.
- Regular reports were provided to stakeholders to measure effectiveness.
