- Proficiency in coding
- Collaboration skills
- Problem-solving
- Attention to detail
- Fast Learner
- Analytical Thinking

WORK EXPERIENCE

JUNIOR WEB DEVELOPER 2023 - PRESENT
IN-STORE REVIEWS INC.

I have served as a Junior Web Developer, participating in multiple phases of system development. My duties encompassed system planning based on business requirements, designing UX/UI components, developing APIs, backend controllers, and models using Laravel, testing the APIs with Postman, integrating them with the frontend using Vue.js 3, and finally overseeing the deployment process on Vultr and Laravel Forge.

JUNIOR WEB DEVELOPER INTERN 2020 - 2023
GLOBALOR PHILLIPINES

I designed user-centered interfaces, coded user-side applications with menus and buttons, and developed back-end functionalities. I also conducted both manual and automated testing to ensure product quality, improving testing processes and offering technical recommendations while maintaining code documentation.

FRONT-END DEVELOPER | V.A. 2019 - 2023
UPWORK INC.

I researched and collected data for lead generation from diverse sources. I identified target customer profiles, validated lead information, and organized databases for tracking progress. Regular reports and updates were provided to stakeholders to measure effectiveness.
